

The Sound of Mosaic

The world is more wonderful when we see it through the eyes of children. Help your town beautify by connecting your students with local businesses so that they can design mosaics for public display. Develop your students' communication skills, study scale and proportion, and integrate your content into this rich project.

At the conclusion of the project, students will present a lasting work of art that symbolizes local businesses, encourages your community to shop local, and provides a source of pride for years to come.
